

15 October 2011 (Saturday) Assignment
Special deliveries of vegetables to Sendai

The seven members of the mission team(3 from Tokiwadai,1 from Sagamihara,1 from Urawa , 1 from Miyahara and 1 from Ookubo) were called upon by the Lord to once again serve at the quake site in Northern Japan.

At four in the afternoon of the 14th, team members gathered at the Convention Center in Minami Urawa for a brief meeting to discuss the nature of the assignment and prayer. Then we began the lengthy journey to Taitomi Church which had graciously offered us lodging. This trip which usually takes 5 and a half hours exceeded seven hours due to the rain.

The morning of the 15th began with prayer and devotion as the team sought guidance from the Lord for our assignment at Ishinomaki in Miyagi Prefecture. The road trip up to Oshika Peninsula took approximately two and a half hours. There we were joined by Rev. Kanamaru and the Sendai group, bringing the number of workers to seventeen. After a meeting to discuss the work assignment , we packed the Daikon radish, green onions, spinach and leeks. These items were chosen in particular since the refugees already have access to potatoes and onions that can be preserved. The team delivered total of ninety in quantity to temporary households occupants to Kyubuhama and to Ogihama.

We also knocked on doors and passed out flyer's inviting the refugees to join us for tea and snacks. We had set up a snack shack and had distributed 200 yen of play money for the patrons to select items of preference rather than passively receive whatever they were given. The children as well as adults appeared to enjoy the simulated shopping experience.

May of 2011

Pile of debris

Amazing clean up work.

Sendai is slowly but surely, on its way to recovery.
